GOWTHAM R

SOFTWARE QA ENGINEER | PLAYWRIGHT AUTOMATION | JENKINS | DOCKER | CI/CD

Phone: +91 90922 32782 | **Email:** gowtham101910@gmail.com | **Location:** Madurai, Tamil Nadu

Professional Summary

QA Engineer with experience in Manual and Automation Testing of web applications. Skilled in Functional, Regression, and API Testing, Playwright (JavaScript), CI/CD pipelines, Jenkins, Docker, GitHub Actions, and Agile methodologies. Passionate about building automation solutions that enhance software quality and delivery efficiency.

Technical Skills

- **Manual Testing:** Functional Testing, Regression Testing, Integration Testing, UI Testing, Smoke Testing, Sanity Testing, API Testing, Defect Lifecycle Management
- **Automation Testing:** Playwright, JavaScript, End-to-End Testing, Cross-Browser Testing, Headless Execution, Test Execution
- **Framework Concepts:** Page Object Model (POM), Test Automation Framework, Locator Strategies
- **CI/CD & DevOps:** Jenkins, Jenkins Pipelines, GitHub Actions, Docker, CI/CD Pipelines
- **Tools:** JIRA, Bugzilla, TestRail, Swagger API
- **Database:** MySQL
- **Version Control:** Git, GitHub
- **Methodologies:** Agile, SDLC, STLC
- **Other Skills:** Cron Scheduling, Secret Management, Telegram Bot API Integration, Linux Commands

Professional Experience

Software QA Engineer

Novastrid IT Ventures Pvt Ltd | Jun 2025 – Present

- Designed and executed manual test cases for web applications.
- Performed functional, regression, integration, and UI testing.
- Reported and tracked defects using JIRA.
- Collaborated with developers and stakeholders to resolve issues efficiently.
- Participated in Agile ceremonies and sprint activities.

Software QA Intern

Amizhth Techno Solution | Feb 2025 – Jun 2025

- Created and executed test cases based on business requirements.
- Identified and documented defects during testing cycles.
- Assisted in test planning, execution, and validation activities.
- Worked on live projects ensuring quality delivery.

Projects

Scheduled Login Monitoring with Playwright, Jenkins & Docker

- Developed an end-to-end automation solution using Playwright (JavaScript), Jenkins, Docker, GitHub, and Telegram Bot API.
- Configured Jenkins Pipelines to automatically pull code from GitHub and execute tests.
- Implemented secure credential management using Jenkins Credentials.
- Scheduled automated execution using Cron Jobs.
- Integrated Telegram Bot API for real-time notification delivery.
- Containerized Jenkins using Docker for consistent execution environments.
- Applied CI concepts through automated test execution and monitoring workflows.

Technologies Used: Playwright, JavaScript, Jenkins, Docker, GitHub, Jenkins Credentials, Cron Scheduling, Telegram Bot API

RESUME UPLOAD AUTOMATION

- Developed a Playwright automation solution to automatically log in and upload resumes.
- Automated authentication, file upload workflows, and execution validation.
- Reduced repetitive manual effort through browser automation.
- Improved consistency and efficiency of resume upload activities.

Technologies Used: Playwright, JavaScript, GitHub

LINKEDIN CONNECTION REQUEST AUTOMATION

- Built a Playwright automation solution to send LinkedIn connection requests automatically.
- Implemented execution limits and stop conditions to avoid excessive requests.
- Generated execution summaries including connection count and stop reasons.
- Automated repetitive networking activities using browser automation.

Technologies Used: Playwright, JavaScript, GitHub

Education

B.E (ECE) – K.L.N College of Engineering, Sivaganga
CGPA: 8.16
